

Gulf MAX GDI

Premium Passenger Car Motor Oil

Product Description

Gulf MAX GDI series is most advanced passenger car motor oil specially developed for the modern turbocharged direct injection gasoline engines in passenger cars, sport utility vehicles, vans, and light-duty trucks. These oils are formulated with special additives and high quality mineral base stocks to provide protection to modern turbocharged direct injection gasoline engines from detrimental effects of possible low speed pre-ignition phenomenon, timing chain wear, protection of vehicle emission system & turbocharger components. Further 10W-30 viscosity grade helps in improving & retaining fuel economy and provides excellent protection against wear, deposits & sludge build-up and help protect engines even while operating on ethanol-containing fuels up to E85. These oils meet the highest API quality API SP and Resource conserving for SAE Grade 10W-30 and API SP for SAE Grades 10W-40, 15W-40, 20W-50

Features & Benefits

- Latest additive technology coupled with severely hydroprocessed base stocks makes these oils robust and provides improved sludge protection, piston cleanliness, turbo-charger protection, seal compatibility and wear protection.
- Compatible with ethanol-containing fuels up to E85. Also helps in emission system durability.
- Provides very good lubrication at low temperatures and protect engine at high temperatures.
- The Special friction modifiers used in the Resource Conserving oils improve & retain fuel economy.
- Superior volatility characteristics reduce oil consumption and hydro-carbon pollution.
- These grades are compatible with conventional passenger car motor oils.
- These are specially formulated to provide Low Speed Pre-Ignition (LSPI) protection and timing chain wear for modern turbocharged direct injection gasoline engines

Applications

- North American, European & Japanese high output gasoline engines in passenger cars, sport utility vehicles, vans, and light-duty trucks where API SP, SN PLUS, API SN, API SM, API SL quality oils are specified (all grades).
- Passenger cars and Light Duty Vehicles running on gasoline and ethanol-containing fuels up to E85.
- Suitable for modern turbocharged direct injection gasoline engines where low speed pre-ignition protection and timing chain wear is required.

Specifications, Approvals & Typical Properties

Has the Following Approvals		10W-30	10W-40	15W-40	20W-50
API SP (Resource Conserving), API SN PLUS		X			
API SP, API SN PLUS			X	X	X
Typical Properties					
Test Parameters	ASTM Method	Typical Values			
Viscosity @ 100 °C, cSt	D 445	10.1	12.9	14.3	19.9
Viscosity Index	D 2270	138	155	150	135
Flash Point, °C	D 92	236	239	242	244
Pour Point, °C	D 97	-36	- 39	-36	- 30
TBN, mg KOH/g	D 2896	7.2	7.1	7.1	7.1
Density @ 15°C, Kg/l	D 1298	0.868	0.868	0.872	0.876
CCS, cP (at °C)	D 5293	5960 (-25)	6362 (-25)	6073 (-20)	8308 (-15)
MRV, cP (at °C)	D 4684	18700 (-30)	20400 (-30)	17600 (-25)	22400 (-20)
HTHS, cP	D 4683	3.1	3.7	4.0	5.2
